7. REPORTS

District and County Councillors' reports were available on the table this evening. Also uploaded to Parish Council website.

DC Fitch-Tillett reported that the new Local Plan was adopted yesterday evening by NNDC. Around £250,000 will be spent on Cromer Pier – NNDC feels duty bound to ensure its continuity.

CC Maxfield said there was little to report: all the County Councillors are awaiting their future with regards to possible elections. He will update the Parish Council at the January meeting. CC Maxfield added that community groups can apply for funding from the Norfolk Community Fund and will send the clerk further details.

The clerk read out the **Trimingham Hall Management report** provided by Liz King, which covered Sept 10th to today. The Trosh was a success when the weather allowed and although profits were down, all who came enjoyed themselves. There are no more Table Top sales until March 1st 2026 when it will be advertised as an early Easter Extravaganza. The Tea Dances have now returned to twice a month with great support, the monthly Fun Cash Bingo is also very well supported, the Christmas community event had eleven Trimingham residents attend plus many others, resulting in £90 towards the Hall's upkeep. The Hall's finances are very healthy with over £5,000 more than this time last year. All other activities are going well including a new yoga class on Sunday mornings. More active volunteers are still needed.

Coastwise report from DC Fitch-Tillett: Jacobs have now finished their research which the new Parish Council can discuss when in post. Thanks to all who gave information at Trimingham Village Hall event. DC Fitch-Tillett added that the in-depth study by consultants will continue to 2050.

Environment Agency licences are needed for the Osier Carr to the River Mun. The object is to keep water out of the cliffs. The plan is to get the River Mun flowing properly again as there are currently lots of reeds blocking the flow. CC Maxfield had a call from the consultation involving the Museum Service at Norfolk County Council. He will catch up with Highways regarding results from the traffic lines/cameras in the village earlier this year.
